

B. R. T. LEGISLATIVE AGENT TAKES SMYSER'S MEASURE

National Representative of Trainmen Says Con- gressman is Not Worthy of Support

An Unsolicited Letter to Secretary of Local Lodge No. 169 B. of R. T. Gives Mr. Smyser's Record and Tells Why Railway Men Should Oppose Him.

The following unsolicited letter from the National Legislative Representative of the Brotherhood of Railway Trainmen, Mr. H. R. Fuller, to the secretary of the local lodge No. 169 B. of R. T., will be of special interest to the Newark railway men as it deals with the record of Martin L. Smyser, the Republican candidate for congress in this district. Mr. Fuller is the representative of the railway men's organization whose business it is to investigate the records of congressmen and report to the various branches whether or not they are deserving of support at the polls. The B. of R. T. have weighed Mr. Smyser and have found him wanting. Read the following letter for yourself:

Beaver Falls, Pa., Oct. 23, '06.
Mr. F. W. Montgomery, secretary
Lodge 169 B. of R. T., Newark, O.
Dear Sir and Brother: Having received a request for the record of Congressman M. L. Smyser of the Seventeenth Ohio Congressional District, I deem it only proper that all of our members in his district should be made acquainted with the following facts:

There was no yea and nay vote on our Employers Liability Act in the House, neither did the pass question come to a vote in that body, therefore, it is impossible to tell how Mr. Smyser voted on the Liability act, or how he would have voted on the pass question had it come to a vote. There is one thing, however, which we know certain, and which Mr. Smyser should be called to account for. I understand that he was supported by the railroad employes during his last campaign for the reason that at that time he promised if elected that he would use his influence to secure the passage of Congress of a law which would correct the abuse of injunctions by Federal judges during labor disputes. This being true, our members in his district had a right to expect that Mr. Smyser would respond when called upon to in any way further legislation of this character, but when he was appealed to he simply ignored our appeal. It came about in this way:

During the last session of Congress, after the Republican members of the House Judiciary Committee, who by the way were in the majority by reason of that party being control of the

House, had voted to smother all of the anti-injunction bills in committee, as your legislative representative on May 16th, 1906, I wrote Mr. Smyser a letter explaining the situation, and asked him if he would be willing to sign a call for a Republican caucus for the purpose of considering this subject, as this was the only means left whereby we could receive consideration of any of the bills by the House, but Smyser failed to make any answer whatever to my letter. It is true that the American Federation of Labor was opposed to the bill proposed by the Administration and which was acceptable to the railroad organizations, but this did not excuse Mr. Smyser for turning a deaf ear to the appeal of the railroad employes, for the reason that we stated to the Judiciary Committee which then had charge of the subject that we would accept any of the bills then pending. Mr. Smyser's action in this connection was a failure on his part to carry out a written pledge made to a large and very important part of his constituency.

He also voted to suspend the operations of the eight hour law as to alien labor on the Isthmian Canal zone. (Daily Cong. Record, Jan. 27, 1906, p. 1628.)

Of course it is being argued by many of the Congressmen who voted to suspend the provisions of that law that the exception applies only to foreigners and in no way affects the American workmen on the canal; but our organizations are in receipt of complaints from railroad employes who are working on the canal that they are also compelled to work more than eight hours a day. Thus it will be seen that in this action Congress set a bad example, and that it is being used as an entering wedge to also lengthen the day's work for American workmen.

He also voted for J. G. Cannon, the arch enemy of labor legislation for Speaker; also for a set of rules whereby Mr. Cannon became almost a sole dictator of what legislation should and should not pass the House, and we have no reason to believe that if he is re-elected he will not again be one of Mr. Cannon's supporters.

I believe that all fair-minded laboring men who have an interest in legislation for their own betterment will agree that Mr. Smyser's record is not one which entitled him to the support of either the railroad employes or any other class of workers.

Fraternally yours,
H. R. FULLER,
Legislative Representative.

WHISKY MEN

Do Not Agree with Conclusions of National Chemist.

Louisville, Ky., Oct. 25.—Intense interest was aroused in local whisky circles by the views on the rules of the pure food commission relative to the definition of "like substances," expressed by Dr. H. W. Wiley, chief chemist of the department of agriculture, and a member of the pure food commission, which promulgated the rules regulating the labeling of whisky. Dr. Wiley's opinion follows: "The mixing of two whiskies would be a blend, but mixing a whisky with neutral spirits would not be a blended whisky, but would be a blend of distilled spirits. If dry whisky is one of the constituents of a compound or mixture, the mixture cannot be labeled dry whisky."

Marion L. Taylor, president of the National Association of Liquor Dealers, does not regard Dr. Wiley's opinion as expressing the views of the commission and says the question of "like substances" will probably be settled by the courts.

It is said the effect of the enforcement of the rules in accordance with Dr. Wiley's opinion would mean a hard blow to the rectifying interests, and it is pointed out that at present prices for whisky the change in the rules would mean a difference of 36 cents a gallon to the rectifiers.

The near completion of the Pennsylvania tunnel reminds the American Israelite of the oldest known tunnel in the world, that of Siloh, near Jerusalem. It was used as an aqueduct. The famous inscription, discovered a few years ago, celebrates the first meeting of the diggers from both sides. C. and is an interesting testimony of the high state of civilization among the Jews at a time when Europe was inhabited by savages.

The police were called, and the fighting foreigner was taken to the police station, where he was locked up on a charge of assault. In police court Thursday morning Tony was fined \$1 and costs, which amounted to \$5.

New Version of An Old Adage

Do You Eat For Mere Stimulation Or For Real Nutrition?

In matters of money, there is an old adage that says, "It's not so much what you earn as what you save," and just so, in the question of food and health, it might be said as truly, "It's not what you eat as what real nourishment you get out of what you eat."

This is the secret of health, strength and vitality. No difference how much nutrition your food contains, if your system does not assimilate that nutrition, it is up and distributed throughout your body—you gain nothing beyond a temporary stimulation by having eaten it. "The Republicans failing to nominate a candidate known to stand for high moral ideals, can expect little else than defeat at the polls this fall. The promise to secure appropriations for a few public buildings will not bolster up the INTemperance and IMMORALITY of any candidate."

—Wooster Herald.

Ashbrook and Smyser.

"It was the worst piece of politics ever played in Licking county," was the remark made last night by a prominent Newark Republican, to the Advocate, in reference to the American Tribune's personal attack upon William A. Ashbrook. "The idea of paralleling a man of Mr. Ashbrook's high moral standing, a man upon whom no breath of suspicion was ever cast, along with the record of a man who had been convicted of forgery, and who on the very day of the publication was put in jail, is preposterous. The action is indefensible from any standpoint. It was manifestly unjust, unfair, indecent. The publication is reacting, as it should. Mr. Ashbrook's friends will not remain quiet under such fire, but they doubtless will have too much political sense to retaliate in kind."

The foregoing expression sums up the opinion generally held by the people of Newark, both Democrats and Republicans. The veiled insinuation against Mr. Ashbrook was an outrage and the American Tribune has been told so by many Republicans.

The American Tribune can not call attention to a single disreputable act in the career of William A. Ashbrook. He is a man who is clean, morally and mentally. He is energetic, and has been engaged in various legitimate pursuits, and has made a success in every one of them. In not one case has he dealt unfairly or dishonorably with any man. Is it dishonorable or criminal to engage in more than one business enterprise? If a man has capacity and calibre enough to direct the management of more than one line of business, should he be condemned and classed with a man who has twice been convicted of a grievous crime?

Line William A. Ashbrook up with Martin L. Smyser, and James F. Lirg-

nieller. Compare Ashbrook and Smyser minutely.

In every particular, in all comparisons that have been brought out and made issues in the campaign, Mr. Ashbrook will be found the superior man.

E. M. Wickham of Delaware, as a judge of the common pleas court, acquitted himself with rare credit on the bench a few years ago. Judge Wickham deserves the second term that awaits him.

Railway Men, Notice.

Mr. H. R. Fuller, national legislative representative of the Brotherhood of Railway Trainmen, whose business it is to follow up the record of each congressman on railway matters, has taken the measure of Martin L. Smyser, and has found him wanting.

In a letter to Mr. F. W. Montgomery, secretary of Newark Lodge, No. 169, B. of R. T., written from Beaver Falls, Pa., Mr. Fuller gives the reasons why Mr. Smyser does not deserve the votes of railway men, showing that he has not been the friend of railway men he claims to have been. This communication speaks for itself, and the attention of Newark railway men is respectfully referred to it on the first page of today's Advocate.

Does Smyser stand for Roosevelt, or does he stand for his old political chum, Foraker, who is now more afraid of the President's "greed of power" than he is of the trust's "greed of avarice."

William Linke did not have experience as Deputy Sheriff in recapturing escaped prisoners, for there were no wholesale jail deliveries at that time, but he did have excellent success in arresting criminals and violators of the law for whom warrants were issued. Mr. Linke has a record in this regard that brings out at this particular time his special fitness for the office of Sheriff, to which he is certain to be elected on November 6.

Postmaster Heisey is running the Republican party of Licking county through his lieutenant, George B. Cox Hamilton, but there is some doubt as to whether he dictated the blundering assault upon Mr. Ashbrook in Tuesday's American Tribune.

When George T. Tavener is elected Commissioner there will be one man on the board whose chief aim and time will be devoted to the public business instead of directing all his efforts and utilizing the county patronage to reelect himself. The county's best interest demands a Democrat on the county board, and Mr. Tavener should be elected by a majority large enough to give emphasis to the people's expressed will.

Tariff Reformers in the New Cabinet.

President Roosevelt's reorganized cabinet is not receiving encomiums from the high wall tariff stand-patners. The most ultra stand-pat member of the Roosevelt cabinet has been Leslie M. Shaw, Secretary of the Treasury. He is to be retired the first of the new year, as announced from the White House, and Oscar Straus of New York, who has been a prominent gold Democrat, becomes a new member.

Roosevelt's newly reorganized cabinet contains at least three members who have in recent years been prominent tariff reformers. These are George B. Cortelyou, Charles J. Bonaparte and Oscar S. Straus.

Thomas B. Fulton's record as a lawyer and city solicitor is clean and altogether creditable. Mr. Fulton is judge of the common pleas court may be relied upon to act fairly, honorably and wisely.

Some rabid Republicans object to the selection of Oscar S. Straus for secretary of commerce and labor, really because he is fundamentally a Democrat, but ostensibly because he cannot be eligible to the presidency in case of the succession running through the cabinet to him. He was born in Rhenish Bavaria. These worried people have forgotten that neither Secretary Wilson nor Mr. Straus is eligible for another and sufficient reason, that these offices were not cabinet positions when the law of 1886, providing for presidential succession, was passed. It looks as if the stand pat bosses will have

considerable difficulty in keeping up their professed friendship for Roosevelt, or rather to suppress their pent up hostility against him until after election.

Burr D. Jackson believes in running the county infirmary in the interest of the tax payers. He is just the man for a place on the board of directors.

It is plainly in evidence that the Republicans of Newark, especially those who have been active party workers for years, are not enamored with the domination of a salaried boss.

William Linke is familiar with the duties of a sheriff. He is fearless, capable and worthy, and will conduct the office to the complete satisfaction of all.

The Republicans now have all three members of the Board of County Commissioners. Wouldn't it be well to make it two Republicans and one Democrat this year? A vote for George Tavener will help to bring about this result. The people know Mr. Tavener to be a man of honor and ability.

You are mistaken, gentle reader. Not one of the seven prisoners who broke out of jail has been recaptured.

Clerk of the Court J. W. Hursey is a man who attends to his business with neatness, accuracy and dispatch. He surely deserves the re-election that awaits him.

Now the Toledo Blade explains it this way: "One reason why this year's campaign is so quiet is that Calamity has lost his voice and Prosperity is too modest to stand on the corners and talk politics." This may account for the speechlessness of a good many Republicans. They also know that the people are not disposed to scare at any calamity howl that disaster will follow a Democratic victory. Ohio rolled up a Democratic majority last fall and the state is better off because of it.

The Ohio Republican machine managers insist that President Roosevelt is the issue in this campaign, yet Senator Foraker goes right on talking in a manner to convince the Ohio voters that there is nothing in the claim to which any attention should be paid.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bac, Ky. HOSTILITY TO DICK AND FORAKER

Is Still Shown by Congressman Burton, as Evidenced in His Speech at Steubenville.

Steubenville, Ohio, Oct. 25.—Congressmen Theodore E. Burton and C. L. Weims addressed the smallest meeting in the history of the Republican party locally last night.

Congressman Weims made a defense of his labor record, which is being attacked. Congressman Burton congratulated the Republicans of Jefferson county on their joining with the fight made this year against Senators Foraker and Dick. He advised continuance of the fight and promised better success in the future. He spoke against bosses "unless their personal qualities, not patronage, made them leaders."

Farmers in Fatal Fight.

Paris, Mo., Oct. 25.—Benjamin Sager, a farmer, was shot dead and his son, Claude, 21, fatally shot by John Sebastian, an aged farmer. The Sagers rented a field from Sebastian and were to pay Sebastian for rent half the crop of corn. They quarreled over division of the crop. Sebastian says Sager and his two sons attacked him with corn knives, whereupon he drew a pistol and shot two of his assailants.

MAJOR TAGGART DYING IN FAR OFF PHILIPPINES

HIS FATHER ALSO NEAR DEATH'S DOOR AT HIS HOME IN ORVILLE, O.

SAD NEWS FOR HIS FRIENDS

Wasted to a Shadow by Oriental Fever. He Awaits Call, Longing For His Boys.

(Bulletin)

Wooster, Ohio, Oct. 25.—Word from the home of the aged parents of Major Taggart this morning says that his father, Morrow Taggart, is not dying, as earlier reported. The old folks were told of the word received last night as to their son's illness. While shocked at the news, yet they bore up well, both saying it might not be as bad as reported.

Wooster, O., Oct. 25.—A message from the Columbus Barracks to friends of Captain Elmore F. Taggart containing the news that Captain Taggart is dying in the Philippines of dysentery and fever was received here last night. The news also bore a message from the bedside of Captain Taggart requesting that his wife and children be notified of his approaching death and that his remains be brought to Wooster for burial.

The intelligence was a severe shock to friends of the Captain here. His father, Morrow Taggart, of Orville, 80 years of age, has been ill for several days and his death hourly expected. The bad news was withheld from him, and the fact that the spirits of father and son may take flight to another world without either of them being made aware of the condition of the other adds sadness to the affair.

Captain Taggart's sensational divorce case, which was tried here during the months of August and September of last year, is not yet forgotten. Captain Taggart's wife was formerly Miss Grace Culver of Chicago. In his petition for divorce Captain Taggart named six co-respondents with whom he charged his wife with being criminally intimate.

Four of the six co-respondents were officers of the United States Army, viz: Captain Bashford, Lieutenant Ryther of Manila, Lieutenant General Miner, retired, former Commandant at Fort Leavenworth, Kan., and Lieutenant Fortescue, a nephew of Mrs. Theodore Roosevelt, who has since resigned his commission. It being stated that his resignation was a result of the divorce case exposures.

Captain Taggart was granted a divorce and the custody of his two boys, Elmore and Oliver. Shortly after the decree was granted Mrs. Taggart disappeared from Wooster with the children, and her whereabouts became a mystery, but she is believed to have gone to Europe.

Captain Taggart made a futile effort to trace his former wife for the purpose of securing the children.

E. S. Wertz, Captain Taggart's attorney here, is now out of the city, but a letter from Captain Taggart addressed to Wertz was opened by Wertz's business partner. The letter was written September 3, from the Island of Leyte, P. I. In the letter Captain Taggart wrote of his recent promotion to the command of a brigade, and stated that he was expecting to secure six months' leave in a short time. Captain Taggart made anxious inquiry concerning the whereabouts of his children. An effort was made here to learn the present whereabouts of Mrs. Taggart. The effort failed. Captain James B. Taylor, who was one of her attorneys, made the statement that only one person knows where Mrs. Taggart is hiding with the two boys.

"That person is Mrs. James Shields, of Highland Park, Ill.," stated Captain Taylor. Mrs. Shields is a sister to Mrs. Taggart. P. C. Given, private secretary to Judge M. L. Smyser, who was Mrs. Taggart's chief counsel at the divorce trial, stated that Mrs. Taggart is known to be in France. He stated that she has a Paris address, but that the address is known only to Mrs. Shields.

Judge Smyser was out of the city. At Captain Taggart's death he will be survived by three brothers and one sister besides his aged parents. The brothers are Frank Taggart, an attorney of Denver, Colo.; David Taggart of Reno, Nev.; and Howard Taggart of Baltimore. The sister is Mrs. Anna Kimberline of Orville, this county.

Mrs. Sarah Taggart, the aged mother of Captain Taggart, who is 75 years old, bore up well when told the news. Captain Taggart has been the financial support and mainstay of his father and mother. The expensive divorce trial practically drained his resources, but since returning to the service he has liquidated all his debts, besides contributing largely to the raising of a mortgage on the home of his parents and sister. His friends in this city, who are made sorrowful by the

news of his approaching demise, are numbered by hundreds.

TO A SHADOW

The Former Stalwart Army Officer Is Wasted—His Columbus Career.

Columbus, Oct. 25.—Word has been received here by Lieutenant William E. Gilmore of Columbus Barracks, that Major E. F. Taggart, who was a principal in the famous Taggart divorce proceedings at Wooster about one year ago, is seriously ill of dysentery in the Military Hospital at Iloilo, Island of Panay, P. I.

He has been suffering for some time and the case is so stubborn that he has wasted to a shadow of his former self. Major Taggart was in charge of the field operations on the island of Leyte when he was seized with the disease. For a time he seemed to recover from the attack, but relapses have left him in a condition that is somewhat alarming. Major Taggart is well known in this city, as he was stationed here for several months after his divorce case. He is attached to the Twenty-fourth Infantry. While at the Columbus Barracks the Major was with the Eighth Infantry.

TAGGART CASE

Will Intensify Opposition to Congressman Smyser at Orville.

Orville, Ohio, Oct. 25.—The serious illness of both Major Taggart in the Philippines, and his aged father at this place, has revived considerable talk over the late Taggart divorce case at Wooster. Quite an effort has been made recently by friends of Congressman Smyser to conciliate the Taggart relatives and their following, who have been sore on Smyser for the vindictive manner in which he conducted the case. So far as can be ascertained, none of the opposition of the Taggart relatives and their numerous friends had been mollified, and the death of either one of them now would intensify this opposition and increase the vote against Smyser.

STRONG TALK BY A FARMER

Defends Tillers of the Soil Against Opprobrious Terms.

HE HURLS A DEFI AT TRUSTS

Tells Farmers They Should Look to Their Own Interests by Combining to Get Fair Prices for Their Products and That Benefits Will Prove Stronger Than Derision.

East St. Louis, Ill., Oct. 25.—Several addresses were made at the convention of the American Society of Equity, a farmers' organization, in session here, in favor of forming an agricultural combine to fix and maintain prices on farm products.

Probably the most interesting address was that by M. F. Sharp of Narrows, Ky. In the course of his remarks he said: "The trust and the combine, which are the agencies of the infernal regions, call us jays, hayseeds, rubes and mossbacks, and say that even if we do organize we will not stick. I will say to you that when organization raises the price of products it is the best sticking plaster in the world. I know the farmers will stick. Equity means a fair deal. All manufacturing industries fix the price of their products and know what price they are going to get for them. The farmer, the backbone of the nation and the world's greatest producer, has been going on the theory that he will take whatever he can get for his produce. Equity intends that the farmer shall take his place with the world's producers and fix a profitable price for his products. That can be done only by a plan of marketing products to control and regulate the market prices."

Rubber Plantations Damaged.
Mobile, Ala., Oct. 25.—Private information received here from Nicaragua coast towns is to the effect that the heaviest losses sustained in the recent Central America hurricane were the large rubber plantations, owned by American and Canadian capital. Several million dollars have been invested in rubber cultivation and a number of trees have just arrived at the bearing period.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as Dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

DUMMY TRAIN

Was Sent Out to Catch a Bandit Who Did Not Show Up.

Chicago, Oct. 25.—Threatened by an anonymous letter writer with the blowing up of one of its passenger trains unless it paid over \$5,000, the Lake Shore company ran a "dummy" train filled with armed men from Chicago to a point in Indiana designated by the bandit, where the train was stopped. No one was found in the neighborhood. Poses are searching the Indiana marshes in the vicinity of Pine, Miller and Aetna. Two employees of the Aetna powder works were arrested because a bottle of nitroglycerin was found in their room. Three letters in all were received from the mysterious writer and the railroad officials turned the matter over to the United States postal authorities, who planned the "dummy" train to trap the bandit.

TWICE-TOLD TESTIMONY.

Newark People Are Doing All They Can for Fellow Sufferers.

Newark testimony has been published to prove the merit of Doan's Kidney Pills to others in Newark who suffer from bad backs and kidney ills. Least any sufferer doubt that the cures made by Doan's Kidney Pills are thorough and lasting, we produce confirmed proof—statements from Newark people saying that the cures they told of years ago were permanent. Here's a Newark case: Amos Frey, shoemaker at 307 E. Main St., and living at 23 Boien St., Newark, O., says: "I made a statement in 1896, recommending Doan's Kidney Pills, and the eight years which have passed have only strengthened my confidence in that remedy. It gives me pleasure in 1904 to confirm what I said in 1896, for my cure was so complete that I have never had any return of the trouble."

The statement made by Mr. Frey in 1896 was as follows: "For several years I was never free from pain, a constant dragging, aching in the kidneys. It was dull and dead so that I had to get up and move about if I sat for any length of time, my back would get so tired and ache so hard that it was really agonizing. I took several kidney medicines but I got no benefit until I happened to learn of Doan's Kidney Pills and got a box at Crayton's drug store. They did all that they promised for they completely removed the miserable pain from my back."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Granville, Ohio, Oct. 25.—The residence of Mr. Theodore Wright was entered by burglars Tuesday night, and ransacked from top to bottom. The burglars succeeded in finding \$8 in one room and \$7 in another, which they carried off with them. The strange feature of the burglary is that going to sickness in the family, had to be kept burning all night, making the crime a very bold one. Several watches and other valuables, which were in plain view, were left uncollected and it is quite evident that the burglars were after money only.

Promptly at 12 o'clock the bridal party took their places under a beautiful canopy of green, when Dr. C. J. Baldwin, pastor of the Baptist church, in the presence of about 35 invited guests, read the beautiful and solemnizing service which united the happy couple for life.

The bride was very becomingly attired in a costume of pongee silk, and carried a large bouquet of white chrysanthemums. Miss Edna Thornton, sister of the bride, as maid of honor, wore a handsome white gown, and carried yellow chrysanthemums.

May Retire From the Cabinet—Not in Harmony With Roosevelt As to Cuba.

Washington, Oct. 25.—The proposition that Secretary of State Root should retire is becoming a conviction in the minds of many.

It is said that Mr. Root was here instead of in South America when the trouble arose, there would have been no armed intervention. AN APPEAL TO WOMEN

Professor Alexander Haig, M.D., Physician to The Royal Hospital for Women and Children, of London, one of the world's greatest authorities, has proven that most diseases, especially diseases of women, Menorrhagia and Dysmenorrhoea (painful and irregular menstruation) are plainly caused by *uric acid*.

For the benefit of all ailing, weakly women, we urge his explanation of common sense.

HOW URIC ACID CAUSES WOMEN'S DISEASES

Many women overwork themselves, are nervous and worry, and many others do not take proper care of themselves during the menstrual period.

From these causes come disease. The uric acid always present in the blood is deposited in little sharp grains like sand and lodge throughout the body.

Imagine the pain and irritation they cause in the delicate female organs. This is the cause of women's weaknesses.

To all women we appeal with the proof of their greatest specialists. We urge the remedy of common sense.

LIFE PLANT IS WOMAN'S ALLY

LIFE PLANT embodies the greatest of all remedies in dissolving it out of every part of the body.

It purifies the blood, encourages the generative organs to their natural healthy functions, relieves all backache, lassitude and nervousness, and brings perfect health.

Any ailing woman who desires to regain perfect health, who is willing to use her own good judgment, may have a free copy of a valuable booklet on "Good Health." Write for it today.

THE APPROACH OF URIC ACID DISEASES

Painful, profuse, suppressed or scanty menstruation, backache, bearing down feeling, nervousness, lassitude (tired feeling), sleeplessness, poor appetite, headache, constipation—all show uric acid work.

IF YOU HAVE ANY OF THE ABOVE SYMPTOMS, ACT AT ONCE. TAKE LIFE PLANT before serious womb or ovarian trouble comes. If you are suffering from disease, cure yourself in a common sense way—drive out the cause of disease—uric acid.

BOOKLET AND MEDICAL ADVICE FREE

Send for valuable free booklet on "Good Health." Write to I. J. Mizer, M.D., President, Life Plant Company, for free medical advice. Write him fully. Your letter will be returned with his answer. But get a bottle of LIFE PLANT from your druggist today.

MORE STOCK CAN BE BOUGHT YET

A NUMBER OF NEW STOCKHOLDERS HAVE SIGNED UP, BUT THERE'S ROOM FOR MORE.

Prospects for Good Team Next Season Are Good—Team Practically Picked Now.

A number of new stockholders have been secured in the new baseball company for next season, and the meeting for the purpose of re-organizing the company will be held within a few days. A few more shares remain and it is hoped these will be taken up before the company is organized.

The outlook for the coming season is even brighter than it was at the beginning of last season, and there is every indication that the Newark club will be more successful than formerly. New officers will direct the affairs of the company and there will be no expense for trying out thirty or forty new men. The team is practically picked and the new company already has lines out for good material to strengthen the team.

Any one who would like to purchase a share, or a half share, or even a quarter or eighth share, can see any member of the company, or leave their names with the sporting editor of the Advocate, and a representative of the company will call and explain the situation.

JACKSON WILL GO BACK TO AKRON

He Writes That He is Sorry For What He Did, and Will Now Be Good.

Akron, Oct. 25.—Pitcher Herbie Jackson has written the Akron club that he will report in the spring, repentant, in condition and eager to have Akron carry off the championship.

This word from the recalcitrant twirler, coming, as it does, when the owners are blue over the loss of big "Buff" Ehnman, is indeed a cheering bit of news. When the blonde lad is right there are none better, Ehnman not excepted, and if he will be as good as he says, Akron will still have one of the greatest right handers in the league.

The fact of the matter is that Herbie did not really want to go away when he did last September. He got on his high horse after being called by Manager East for staying in Youngstown, and said some things that would have made accepting the fine East imposed and going back to work a humiliation, at least he thought so. Way down in his heart "Jack" wanted to stay. He sees the error of his way now, he writes.

"We shall keep in touch with Jackson all winter," said President Gibbs today. "He is a cracker-jack and with him working right, as I believe he will, our pitching staff will be greatly strengthened. Good news! Well, I should say it is."

UMPIRE SAM WISE IS AN ELECTRICIAN

He Works With Pliers and Copper Wire When Not Umpiring Baseball.

"Yes, I suppose it does seem strange to see an ex-baseball player or any other athlete away from the saloon business, but none of it for me," said Sam Wise, the veteran player and umpire, as he wrapped up a coil of wire and prepared to go to another piece of work.

Sam is an electrician and has been working at his trade since the close of the O. and P. season. His work is out of doors and he likes it.

"I never felt better in my life than right now. This work is better than umpiring. I don't believe I'll ever go back to handling the indicator. Since I was a youngster I have experimented with electricity and the years of dabbling in it have fitted me to get a fair kind of a job. The pay is not bad and the work is agreeable."

AKRON USED SQUEEZE PLAY.

In commenting on the squeeze play which won Birmingham the Southern league pennant, Harry Neely, sporting editor of the Youngstown Vindicator, says Akron used the play more than any team of the O. and P. last season. Two games were won from Youngstown in Youngstown by the squeeze, Neely says. Birmingham tried the play 103 times last season and was successful with it all but 11 times.

LAUDS TAMMANY.

Former Chief Says It Is The Real Reformer of Gotham.

Dublin, Oct. 25.—In an interview published here Richard Croker, referring to Tammany Hall and its alleged bad reputation, said: "It is a case of giving a dog a bad name. If any one connected with the organization, however insignificant his position, does anything dishonorable Tammany is blamed. The reformers never did anything for New York. The great bridges, the elevated railroad, the public buildings and everything are the work of Tammany. If there was corruption why did not the district attorney prosecute somebody? Tammany Hall has succeeded entirely on its merits. It is the most democratic institution in the world. If anything is wrong with it then something is wrong with the people themselves. It stands not only for the poor man, but also for the foreigner newly landed on American shores. It believes, as against the Republican party, that the foreigner should receive the benefits of the American constitution as soon as possible. It stands all around for equal rights."

Craving for Drink Destroyed.

The best aid to temperance is something that will strengthen the drunkard's wrecked nervous system and cure his unnatural craving for drink. We believe that any man who really desires to be cured of the liquor habit can cure himself by using Orrine. This remarkable discovery has made so many cures among our customers that we are glad to sell it under an absolute guarantee to refund the money if it does not cure. It is in two forms: No. 1 that can be given secretly, and No. 2, for those who wish to be cured. It is not only the most reliable treatment known, but it is also the most economical, as it costs only \$1 a box, and there is no detention from the usual duties, while if cure is not effected, there is no expense whatever. Mail orders filled. The Orrine Co., Washington, D. C., or Hall's drug store.

The Estimates for Postal Service for Ensuing Year.

Washington, Oct. 25.—Postmaster General Cortelyou, submitted to the secretary of treasury for transmission to congress, estimates for the postoffice department and the postal service for the coming fiscal year. The amount asked for salaries and the postoffice is \$1,528,920, being a net increase of \$121,830 over the current year, while the amount asked for maintenance of service is \$203,682,190, a net increase of \$15,000,000. The estimates last year were about \$12,000,000 in excess of the appropriations for the year before, so that the increase this year is about \$3,000,000 more than the increase last year. The apparently large increase according to the department represents but a normal advance, made necessary by constantly growing needs and the public demand for improved facilities.

AMUSEMENTS

MERRY MILK MAIDS.

The much talked of and advertised opera, "Merry Milk Maids," for the benefit of Christ's Episcopal church was given last evening at Hogan's opera house, to an exceedingly large and critical audience, testing the capacity of the theatre to the utmost. This is a very beautiful opera throughout, Susquehanna's local singers very agreeably surprising every one in their ability to not only sing, but act as difficult an opera. This was due to the ability of Prof. Randall, who is to be congratulated upon his ability as a director. We can only bespeak a big financial aid for the church, as every seat should be taken at every performance. The specialties alone are worth the price of admission. The prize cake walk was the finest ever seen here. Laugh and get your money's worth by attending the opera each evening.—Susquehanna Transcript.

At the Auditorium Friday and Saturday nights, Oct. 26 and 27. Benefit of St. Paul's Choral Society. Prices, 25c., 35c. and 50c.

EZRA KENDALL COMING.

Don't overlook the fact that America's most unique comedian and foremost jokesmith, Ezra Kendall, is to appear in "Swell Elegant Jones," at the Auditorium, Oct. 31, in the greatest success he has ever had, a comedy of rural construction by Herbert Hall Winslow, author of Mr. Kendall's last season's success, "The Vinegar Buyer."

"Swell Elegant Jones" is a play depicting incidents, humorous and otherwise, in the life of one Tom Jones, as portrayed by Ezra Kendall, and is in three chapters.

Ezra Kendall has interpolated a new monologue into the action of the play, and these few minutes of humor, as given by the greatest monologist we have ever had, is an inducement to theatre-goers that they will be quick to appreciate. Tickets are now selling.

A Wonderful Remedy

Mr. C. B. Pitzer, Newark, Ohio, says: "I think Dr. Jackson's Digestive and Liver Powder is the greatest remedy in the world. I suffered constantly from rheumatism, bloating, sour stomach and heart trouble. At times I could hardly get my breath. I could not eat solid food and nothing seemed to help me. After using many remedies I concluded to give Dr. Jackson's Digestive and Liver Powder a trial. From the first it relieved me, appetite improved and strength increased. After using a few boxes, I was entirely cured. The above trouble was caused by indigestion. Our powder simply contained the ingredients to replace what was lacking in his weak stomach and digestive organs to digest the food and prevent it from fermenting. They converted the food into good, rich, red blood and built up the entire system. Being in powder form and does not irritate the stomach in any way, and I gave relief at once. See that Dr. A. L. Jackson's picture is on every package."

PALMA'S SIDE TO BE TOLD

He Is Preparing Manifesto Giving Inside View of Cuba.

WILL JUSTIFY HIS POSITION

Some Unrest Still Manifest in the Environs of Havana—Rifles Taken from Cuban Insurgents Thrown into the Sea—Cuban Mayor Out of One Difficulty Into Another.

Havana, Oct. 25.—Former President Palma is in Matanzas preparing a manifesto, which will cover the events of his administration. This document will dwell especially on his relations with the Washington administration and his reasons for appealing for intervention. It is addressed to a prominent member of the Moderate party for circulation among friends and supporters of the ex-president. It probably will be made public later.

Unrest continues in Puerto Principe and Santa Clara, where small bands are committing minor depredations. The residents of Holguin requested protection against a considerable body of ex-rebels and a battalion of infantry was sent there.

The mayor of Aguacate, Havana province, who was ousted from office was restored to his position Tuesday and organized an armed escort of 22 men, alleging that he feared an attack by the Moderates. Governor Magoon ordered General Nunez to compel the mayor to surrender the arms and to bring the weapons to Havana.

The statement by Secretary Taft before his departure from Cuba that he would put all the arms surrendered by insurgents where they would do no further harm was verified when a company of the Cuban artillery threw these weapons into the sea from the outer bastion of Morro castle. Thousands of rifles and carbines were sunk in 30 fathoms of water.

BIG MEETING OF WOODMEN

PROMINENT OFFICIALS OF ORDER PAY A VISIT TO NEWARK.

Enjoyable Program of Music and Addresses Carried Out at the Auditorium.

One of the big events in local lodge circles was the fine meeting and reception to the national and state officers of the Modern Woodmen at the Auditorium Wednesday night. The Auditorium was packed with members of the Woodmen and their auxiliary, the Royal Neighbors, together with their friends.

Addresses of ability were delivered by Head Consul A. R. Talbot, Supreme Medical Director Dr. F. A. Smith of Rock Island, Ill. and Editor F. O. Van Galder, of the "Modern Woodmen" office in Rock Island. The speakers of the evening were introduced by Judge C. W. Seward. The program throughout was an excellent one and was thoroughly enjoyed.

Head Consul A. R. Talbot of Lincoln, Neb., made the principal address of the evening which was interesting as well to outsiders as to members of the organization. It appears that if intimate association ever bred resemblance, Consul Talbot's intimate association with William J. Bryan, with whom he was in partnership in the practice of law in Nebraska for a number of years, has borne out the claim. Beside being a gifted orator, Consul Talbot closely resembles Mr. Bryan in many features. He has the same square chin, straight, firmly set lips and high forehead. The Head Consul has, however, even a stronger resemblance to the late president William McKinley. At a short distance the two characters are brought so closely together in this similarity of features and facial expression that the observer frequently catches himself believing that he hears William McKinley.

Editor Van Galder of Rock Island gave a very interesting comparison showing the magnitude of the publication, The Modern Woodmen. His talk was entertainingly interspersed with humor and pathos.

Dr. F. A. Smith, also of Rock Island, spoke for a short time on the advantages of brotherhood and the dangers facing unprotected families and their lives. Dr. Smith furnished enough of the humorous to keep his audience listening all of the time.

Aside from the speakers, there appeared on the program many other entertaining features. The new Marsh band of 20 pieces, decked out in gorgeous new uniforms, presented a beautiful appearance, and in the style with which the various numbers of the concert program were played in the wind and rain, made a very favorable impression.

Mr. Ernest G. Wall and Mrs. Bertha Doomey Roe each sang two pleasing numbers and both received hearty applause, showing that their excellent standard of ability was well appreciated.

Delmo, the clever juggler who has been entertaining the patrons of the Orpheum theatre for the past few days, appeared in his act and was heartily applauded.

Perhaps the most amusing of this part of the program was the black-face singing and dancing of Master Emerson Ballinger and Miss Mildred Humphrey. The young people gave a very entertaining little sketch, and sang coon songs in true "darkie" style.

Too much cannot be said in praise of the excellent drill team of Cedar Camp, which executed some of the most beautiful and difficult drills yet seen here. Captain E. C. Richardson has spared no pains in working the team up to the rank which it now occupies, rightly claiming to be the best drilled team in Ohio.

One of the features of the reception was the arrival of the party from Zanesville Wednesday noon. They were met at the B. & O. depot by the officers of the local camp and Messrs. Ben Jones, Dr. W. S. Turner, E. T. Ruz, A. H. Pierson, A. H. Heisey, E. Carey Norris and Dr. C. D. O'Hara, with their autos. The party was shown all over the city and taken to Idlewild park and the prehistoric mounds of the State Encampment grounds, after which the party returned to the Warden.

Accompanied by State Deputy N. C. Sherburne of this city, all of the officers left early Thursday morning for Columbus, where they will be tendered a similar reception in the evening.

Mrs. Bertha Doomey Roe, who is one of Newark's favorite singers, sang most beautifully a solo, "Song of the Nightingale," by Nevin, and for an encore, sang the following:

Woodman Song.

(Tune, "Would You Care?")

Did you ever think it over,
That, dear friends, we're growing old,

And perhaps within a few years
We'll be laid beneath the mold?
Think of wife, and think of dear

A Rare Chance

We have recently bought a small lot of high grade teeth at a great bargain, and for a short time (while they last) we will give our patrons the benefit of it, and make them first class guaranteed set of teeth for the small sum of \$6.50. This does not include extracting, the mouth must be ready. This is a rare opportunity, but will not remain open long, for they will not last long, and we can not buy any more at these figures.

FALL SUIT REMARKS

THE SUITS of the season suggests stateliness rather than baggy fulness. Take the coat, for instance—though the shoulders are broad, the lines concave towards the waist, then flare out into long skirts, forming what is called, the French back. Some of these suits have center vents with creased side seams. The new big lapels tend to give the impression of a broad chest. A noticeable feature of this long coat is the fact that it lends itself equally well to short and tall men.

There's a Long Price Range
\$10-\$12-\$15-\$18-\$20-\$22.50-\$25

The exclusive tailor-made may cost you double, but you can rest assured our suits and overcoats compare in every way with the first-class tailored and we guarantee satisfaction in every way.
